REFLECTIONS

The Year 1971, for the Urban League of Essex County, began with a process of re-organization, institution of new programs and innovation of some old ones. The new President, who took office on August 1, 1970, had already set the tone for new horizons--the scope of the League was to be widened--the Staff and Board of the League were set on a course of "uniting the best wisdom of yesterday with the awareness of tomorrow."

Events, seen and unforeseen, had effect upon, but never stopped the basic mission of the League in going where the problems were to work on "institutional reform, mobilization, cooperation and unification."
